

- Community Notice - Events at Beach

Interest in utilizing our community beach to accommodate private events hosted by CAIA members that involve invited non-CAIA guests continues to grow. These events include birthday parties, book clubs, sports teams, baby showers, graduations and scout meetings. We recognize the pride we all have in our beach and the desire to utilize it as an impressive backdrop for these important events in our lives. We are also aware that these events could impede the free use and enjoyment of the beach by all CAIA members.

In an effort to mitigate the impact these events may pose on beach use and access by all community members, while keeping a realistic view of how the beach is being used, the Board will continue this year with accepting requests for specified events to utilize the Beach Reserved Area. This reserved use area is intended to balance the needs of all members and is located at the small beachfront along Cypress Creek nearest the marina cove. Non-CAIA members are prohibited from parking at the beach at any time.

Any CAIA member interested in reserving the Beach Reserved area for their private event, must submit the following application for review and approval by the Beach Chairpersons.

Guidelines for Event Requests:

- Total event capacity not to exceed 30 person (residents and guests)
- Commercial/ For Profit/ Public events are prohibited
- All Beach Rules Apply (No Glass, No Smoking, Trash Removed)
- Event restricted to designated Beach Reserved Area only
- Resident Host is responsible for Guest conduct
- Parking at Beach for CAIA members only

CAIA members are not required to request approval for events that are exclusive to only CAIA members.

CAIA members are discouraged from hosting activities that would impede the general use or access to the main beach, tables, boardwalk or areas outside of the Beach Reserved Area.
